

During the
COVID-19 Crisis,
we're offering these
solutions free
of charge.

When Your LIVING SPACE Becomes Your OFFICE SPACE

We get it. One day you're battling your crowded morning commute, then suddenly you are thrown into the virtual isolation of remote work. It can seem overwhelming and daunting, but it doesn't have to be. Let us help you and your employees gain the confidence needed to put your minds at ease ... *and succeed*. We have two solutions designed to help companies develop potential and existing employees into productive and highly motivated remote workers.

Virtual Worker Assessment

An online assessment that helps you determine which employees have the skills needed to perform well in a virtual environment and which employees may need extra help.

Takes 15-20 minutes to complete the assessment.
Results are made immediately available.

Virtual Worker Survivor Skills Course

A six module online course designed to boost the productivity of your virtual workforce while retaining this in-demand talent and improving morale and motivation.

Focuses on the challenges of working remotely, including the importance of becoming organized, building trusted remote relationships, and more.

Each modules takes 15-30 minutes to complete.
