

LIMRA EMEA OPERATIONAL REVIEW

LIMRA's Operational Review will guide your organization towards the right direction.

Our expert consultants will review your company's corporate strategy as well as its distribution and its operational effectiveness, to increase profitability and gain market share.

What You Receive

A **detailed fact find and situational assessment** that includes distribution strengths and weaknesses, methodologies, sales practices, customer service, back office support, training, and compliance

A **confidential status report** that highlights the alignment of your business practices with the company's vision and strategy

A **blueprint of recommendations and actions** to achieve total alignment with your company's stated vision and strategy

About the Service

LIMRA members may request **one Operational Review per year** included in the Membership. The process takes two days.

We also recommend you a **5-day Operational Review** (with minimum disruption).

Futher Options

A **pilot** to verify the blueprint which includes :

- Actual on-site demonstration
- Training for the trainer
- Executive development

Support for the **companywide** rollout as required.
