Speaking the Language of Business: A Financial Mastery Session for Insurance Professionals

Ann Martel, CPA, FLMI President Martel + Associates

"If you speak the language of money, you will be more successful. Finance is the way businesses keep score."

Richard Ruback, Willard Prescott Smith Professor of Corporate Finance, Harvard Business School

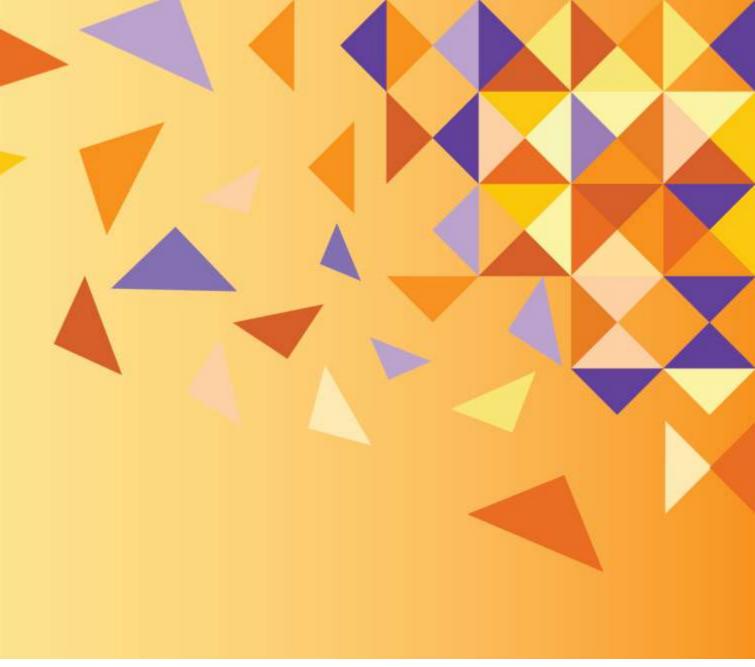

3 Basic Rules of Finance

Rule #1: Know your costs!

Direct cost of cupcake: \$4.00 per cupcake

Ingredients: \$1.50 per cupcake

Wages for baker, decorator etc. : \$2.00 per cupcake

All other direct costs to make a cup cake : \$.50 per cupcake

General and Administrative

TUARIES

Rule #2: Price appropriately

Rule #3: Harvest the \$\$\$\$

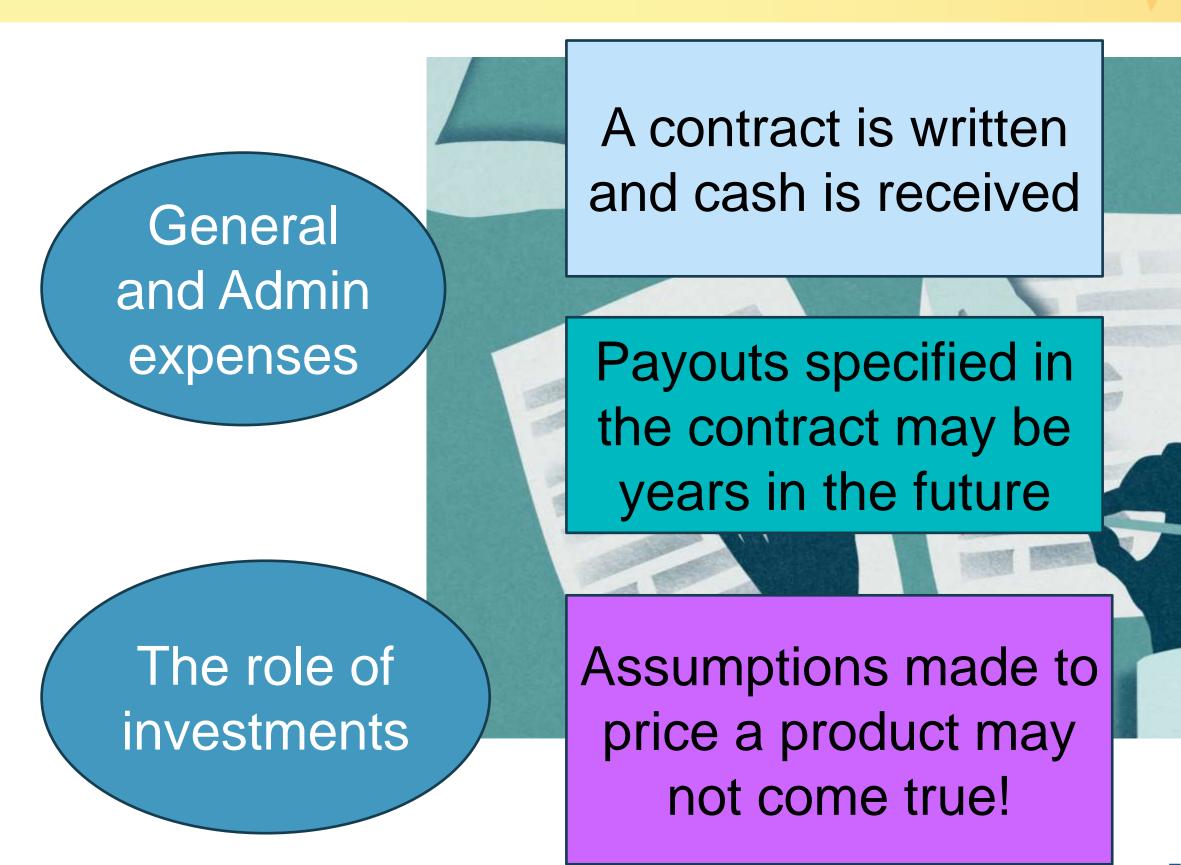

How is the insurance industry different?

Marketing and Sales expenses

Regulatory impacts

How is the insurance industry different?

Nature of business- pricing, costs, reserves

Importance of the investment portfolio- risk versus return

Statutory requirements versus GAAP

Target customers changing needs

How do life insurance companies make money?

Three pricing factors...

Operating Expenses

Potential Investment Income

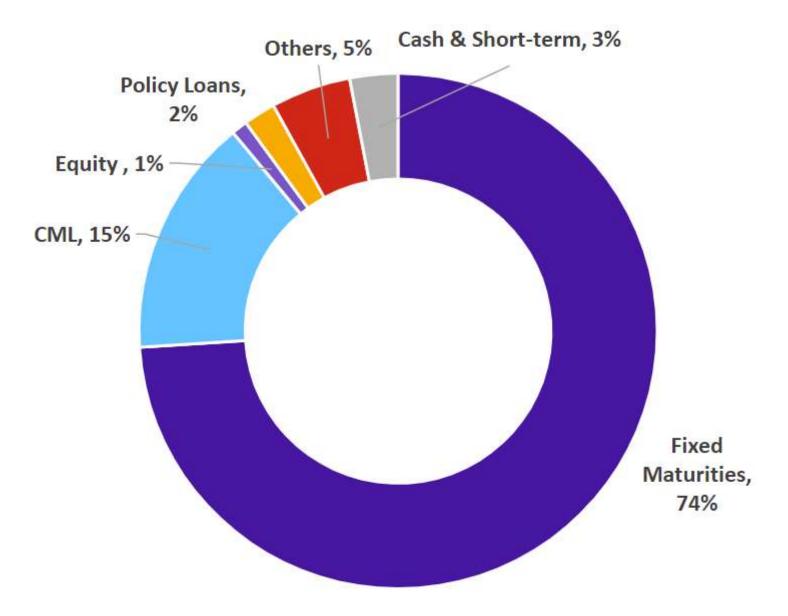

Minimizing risks...

September 30, 2023 Asset Allocation

'Others' primarily include derivatives and receivables under certain modco. agreements.

Challenges in today's environment...

- Interest rate changes
- Market volatility
- Changing accounting rules

- Nature of business- pricing, costs, reserves
- Importance of the investment portfolio- risk versus return
- Statutory requirements versus GAAP
- Target customers changing needs

 \checkmark

STAT versus GAAP

GAAP

Focus on info for investors
Shift over time from income statement focus to balance sheet focus (fair values)

STAT

- •Focus on solvency and claim paying ability of insurer
- Protection of policyholders

How is the insurance industry different?

- Nature of business- pricing, costs, reserves
- Importance of the investment portfolio- risk versus return
- Statutory requirements versus GAAP
- Target customers changing needs

Target customers changing needs

- Aging demographics
- Global implications
- Financial knowledge or customers... or lack?
- Digital implications

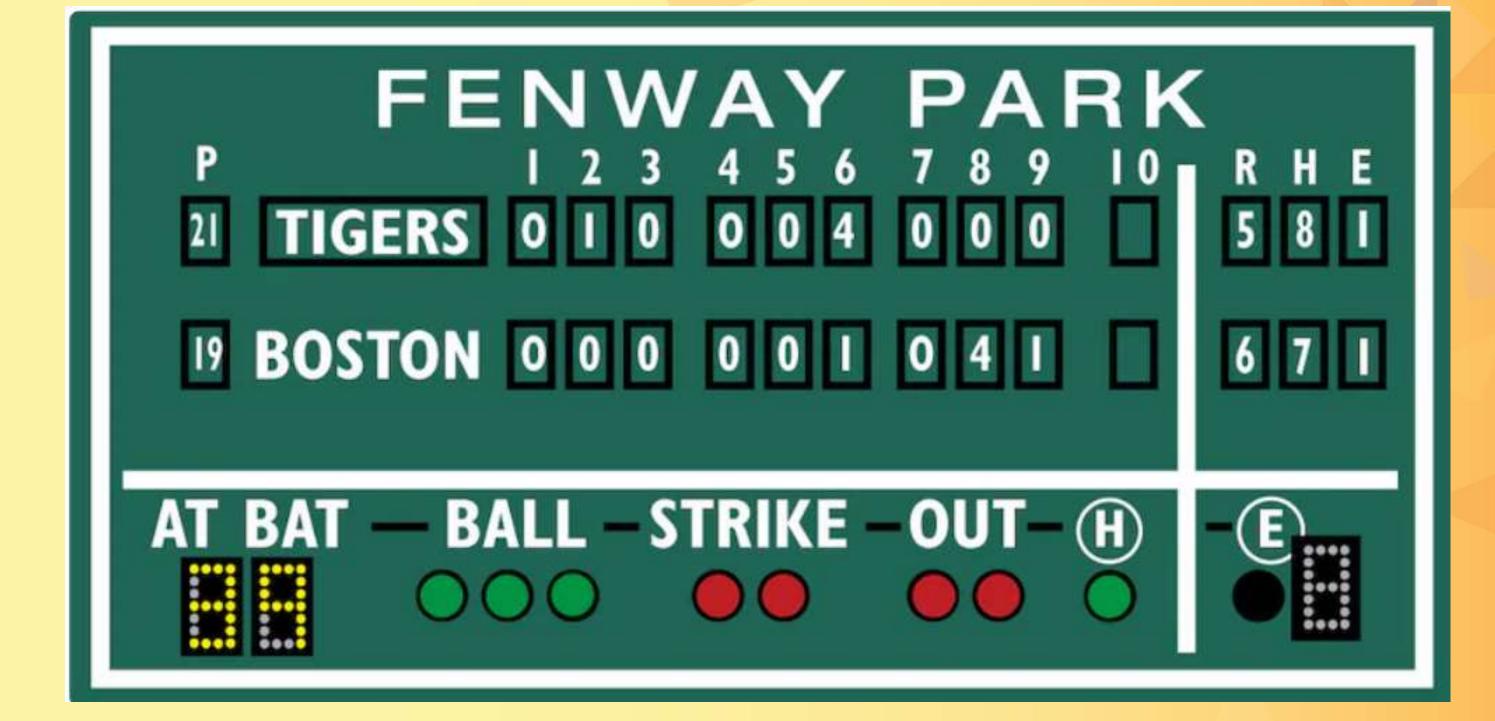

What's the Score?

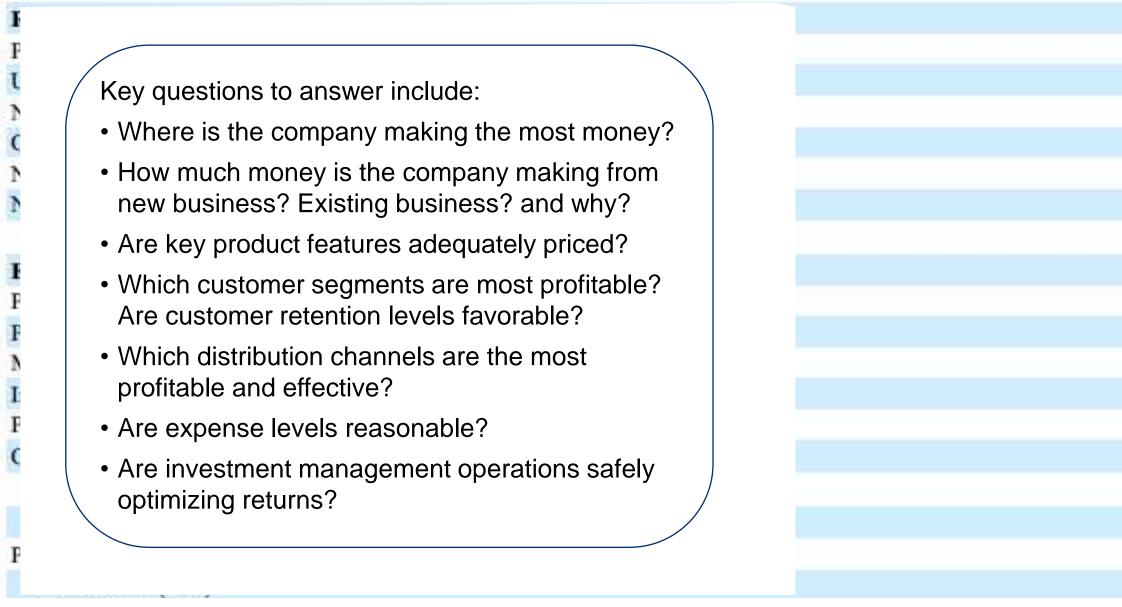

Income Statement: Gives an Overall View of Profitability

Balance sheet basics – Insurance Style!

- Assets start with Investment portfolio instead of cash
- Liabilities to policyholders and customers is biggest component
- Investment portfolio versus liabilities
- Owners' investment = Equity=> Surplus

Balance Sheet: A Picture of the Financial Strength

Financial Literacy at Any Level!

The financial question each leader must answer:

INDIVIDUAL CONTRIBUTOR

How does the firm make money, and is the firm financially strong?

MANAGER

What are the firm's revenue and growth drivers, and how do these drivers connect to the business strategy?

DIRECTOR

Looking at lagging indicators (contract value, net retention rate) and leading indicators (cost predictions, macroeconomic forecasts), is the firm playing in a growing market?

What's the future?

Carriers must be ready to respond to industry and macroeconomic forces creating diverging growth between products and regions.

Direct premium growth,¹ percentage points (p.p.)

●<0 p.p. ● 0-4 p.p. ● 4-10 p.p. ● >10 p.p.
