

## How to log in to Salesforce add-in in Outlook

- Open up the Salesforce add-in in Outlook

- Click on the Log In to Salesforce button and keep the Environment set to Production

- Click on Use Custom Domain link

- Type in “llglobal.my.salesforce.com” and click Continue button

The screenshot shows the Salesforce 'Use Custom Domain' interface. At the top is the Salesforce logo. Below it, the heading 'Use Custom Domain' is centered. A text box explains: 'To go to your company's login page, enter the custom domain name.' Underneath, there is a label 'Custom Domain' followed by a text input field containing 'llglobal.my.salesforce.com'. Below the input field, the URL 'https://llglobal.my.salesforce.com' is displayed. At the bottom, there are two buttons: a white 'Back' button and a blue 'Continue' button. Red boxes highlight the input field and the 'Continue' button.

- Click on LL Global SSO button

The screenshot shows the Salesforce 'Log In Using' screen. At the top is the Salesforce logo. Below it, the heading 'Log In Using' is centered. A large button labeled 'LL Global SSO' is highlighted with a red box. At the bottom, there is a link that says 'Log In with a Different Account'.

- Enter network credentials (you may have to enter your email address and then password) and click Sign in button

The screenshot shows a login page for limra.com. At the top left are the logos for 'LIMA' and 'LOMA' with the tagline 'Helping You Succeed'. Below the logos, the email address 'markoulakis@limra.com' is displayed. The heading 'Enter password' is centered. A message reads: 'Because you're accessing sensitive info, you need to verify your password.' Below this is a password input field with a series of dots and a visibility icon. A link 'Forgot my password' is located below the password field. At the bottom right, there is a blue 'Sign in' button highlighted with a red box.

- Either enter the code or approve the sign in from the Microsoft Authenticator app on your cell phone and click Verify button
